- A full-stack desktop application for managing warehouse inventory in real time.
- An RF device – enabled Android app for seamless warehouse inventory management.
- A barcode-scanning mobile tool to validate and count inventory efficiently.
- A web solution that automates stock replenishment processes. .
- A light-guided picking system that boosts accuracy and speed in warehouse sorting.

EDUCATION

- **Gawaran National High School, Batch 2013**

- **COMPUTER NETWORK ADMINISTRATION (CNA), Batch 2023**
  International Electronics and Technical Institute (IETI) • Las Piñas

CERTIFICATIONS

- MICROSOFT OFFICE SPECIALIST
- ELECTRONICS PRODUCT ASSEMBLY AND SERVICING NC II
- .NET CORE & ANGULAR JS

SKILLS

Programming Languages

- C#
- Java
- JavaScript
- PHP
- C / C++
- VB.Net
- Oracle PL/SQL

Web Development

- ASP .NET MVC
- HTML / CSS
- Angular

Databases

- SQL / Database Design
- MySQL
- Oracle SQL Database
- Microsoft SQL Server

Version control & Collaboration Tools

- Git
- TortoiseSVN
- Trello

Infrastructure & IT Systems

- Active Directory
- DNS Management
- VMware
- IT Infrastructure Management
